Introduction

Statement of Purpose

Coastal Academy is an educational nonprofit organization that exists to support evangelical Christian families in their choice to educate at home. Coastal Academy is committed to providing support and services for high school students seeking a traditional high school diploma. Coastal Academy's requirements do not, however, substitute for God's calling upon your student or your family. Each enrolled family retains the ultimate responsibility for its student's education as commanded by God in Deuteronomy 6:6-9: "These commandments that I give you today are to be upon your hearts. Impress them on your children. Talk about them when you sit at home and when you walk along the road, when you lie down and when you get up. Tie them as symbols on your hands and bind them on your foreheads. Write them on the door frames of your houses and on your gates."

We encourage you to prayerfully consider God's calling on your student as well as his/her talents and abilities as you develop an educational goal. At Coastal, we believe that character, integrity, and living God's will are as important as academics to the education of a high school student.

Definition of High School

Students enrolled in grades nine through twelve are considered to be high school students. Students in middle school (grade 6-8) may receive high school credit for course work completed when taught at the high school level.

A student entering high school should have mastered the basic skills of reading, writing and arithmetic, be able to reach logical conclusions and know how to use research materials. A high school education should continue to build upon these foundational skills and seek to advance them.

In addition to meeting state requirements for graduation, all students need Godly character, communication and thinking skills, life preparation skills and exposure to many different fields of study. A student should explore elective courses and extracurricular activities that coincide with current interests or future career plans.

Purpose of This Manual

This manual has been created to help families meet the requirements for high school education at Coastal Academy and plan for their student's future beyond high school. This information, to the best of our knowledge, is accurate. **It is important to always confirm this information due to the changing nature of educational requirements.** All Coastal Academy policies outlined in the Academy Handbook also apply to families with high school students.

Note of Caution

Some parents who have tried to transfer their students to a public high school have been told that no credits would be allowed for work done at home. Schools have the right to refuse to recognize course work from unaccredited schools. Carefully consider your options before beginning homeschooling at the high school level. Most local schools have accepted all Coastal credits except for Bible courses. Also, if you plan to transfer to another school, it is wise to check the graduation requirements of that school and plan your courses accordingly. Please note that LAUSD is now requiring their students to complete the A-G requirements in order to graduate. Please see page 13 for more on A-G requirements.

Admission Requirements

These requirements are the same as for all students entering Coastal Academy. Please refer to the Coastal Academy Handbook for enrollment requirements.

Recommended Reference Book

Coastal Academy recommends that each family purchase a copy of Mary Schofield's The High School Handbook. We find this book to be an indispensable resource for the parent when addressing issues concerning the home schooling of your high school student. Additionally, this book will assist the parent in

determining credits and hours, and provides helpful information when filling out Coastal required forms such as the High School Planning Worksheet and Course Description/Grading Standard.

Coastal Academy High School Graduation Options

High School Diploma/Certificate Options

To allow for different educational philosophies, Coastal Academy permits students to pursue one of the following graduation options. Carefully study the options and choose the one that is best suited for your student's high school goals. The primary difference between the plans is whether a student meets the minimum graduation requirements of Coastal, which are similar to the minimum of the state of California's requirements, or a program designed by the family.

Plan A- Coastal Academy Diploma and Transcript

Students who are enrolled in Coastal Academy, complete the minimum Diploma Requirements (see page 3), earn the minimum 240 credits, and at least one semester before graduation, demonstrate high school proficiency by passing an approved exam (see page 8), are eligible to participate in Coastal Academy's graduation ceremony and receive a diploma. Students who fulfill all the graduation requirements after the deadline to participate in the graduation ceremony will receive a Coastal Academy diploma even though they may not take part in the ceremony. An official Coastal transcript will be issued upon request documenting the list of courses, grades, credits and achievements a student has completed.

Plan B- High School Proficiency Certificate

The goal of this plan is to graduate by earning a high school proficiency certificate issued by the California State Board of Education. This certificate is awarded by the state upon passing the High School Equivalency Test (HiSet). The student must be enrolled in Coastal Academy to meet compulsory attendance requirements until the exam is passed. An official Coastal transcript can be issued for the course work completed. The transcript will be marked "Graduation Requirements Not Completed."

Plan C1- Individualized Education Program (IEP) Diploma

It is required that any child who is working academically two or more years below their grade level in any subject have an Individualized Education Plan (IEP). Each IEP must be designed for only one student and must be a truly individualized document. An IEP must be in place, if the family wants to request any services from the local school district. The IEP creates an opportunity for parents, student, and high school advisor to work together to improve their educational results. It is vital for students working under an IEP and their families to be proactive and informed. Parents should get a thorough assessment so they will know the type of learning disability and how it impacts the student academically. They should begin early to ensure the student is focused on long-term goals, graduation, adult life, and a bright and successful future.

Coastal Academy's ISEP (Individualized Student Education Plan) Forms are useful tools for detailed planning and tracking progress. If the student has satisfied or will satisfy all Coastal and state graduation requirements, including but not limited to maintaining full-time student status for at least 12 years, excluding Kindergarten, then they can be awarded a Coastal diploma and may participate in the Coastal graduation ceremony.

Note: Students on an IEP who earn a high school diploma or reach age twenty-two are no longer eligible to receive special education support and services.

Plan C2- Individualized Education Program (IEP) Certificate

These students are not typically scheduled to receive a high school diploma. The IEP certificate is intended for a student with the most significant disabilities in recognition of his or her successful achievement of individual educational goals based on the appropriate level of learning standards as specified in the student's current IEP. While earning an IEP certificate may be an important milestone for a student, it is a certificate that is not often accepted by employers, the military, higher education institutions, business/trade schools or apprenticeship programs because it is not based on standardized criteria (successful completion of required courses and achievement on test assessments).

A decision as to the type of certificate a student is expected to earn should **not** be made early in this case because students should always be working towards a high school diploma. The IEP development process should serve to inform students, and their parents, if, because of the severity of the disability, the student may be likely to receive an IEP certificate in lieu of a Coastal high school diploma. A student who does earn an IEP certificate will have the same opportunity as all students to participate in Coastal Academy's graduation ceremony. Coastal Academy's ISEP (Individualized Student Education Plan) Forms are useful tools for detailed planning and tracking progress.

IEP Certificate Options:

- Attendance/Completion/Achievement
- Provides exit options for those not meeting Coastal graduation requirements
- Flags students receiving special education
- Recognizes that students with disabilities may be working on different standards
- Allows IEP students to receive special education and support services

Comparison of High School Diploma / Certificate Plans

Requirements:	Plan A	Plan B
	<u>Academy Diploma</u>	<u>Proficiency Certificate</u>
Course Description/ Grading Standard Transcript Attendance Record	All forms must be turned in each semester	All forms must be turned in each semester
Completion of Graduation Course Requirements	Yes	No
Minimum Required Credits	Average 30 Credits per semester 240 credits total	Must maintain full time student status until certificate is earned
Testing Requirement	HiSet or IOWA passed in 11 th grade or by fall of 12 th grade	HiSet

Comparison of IEP Diploma / Certificate Plans

Requirements:	Plan C1	Plan C2
	<u>IEP Diploma</u>	<u>IEP Certificate</u>
Course Description/ Grading Standard Transcript Attendance Record	All forms must be turned in each semester	All forms must be turned in each semester
Completion of Graduation Course Requirements	Yes	No
Minimum Required Credits	Average 30 Credits per semester 240 credits total	Must maintain full time student status for 12 years, excluding K
Testing Requirement	IOWA or other approved testing by fall of 12 th grade	Student progress review in Spring of 11 th grade

Note: Each plan requires HSLDA Enrollment until the youngest enrolled student has successfully passed the HiSet. Each plan requires 6 hours of Parent Training per year.

Course of Study for the Academy Diploma

Families choose whether to follow a College Preparatory course of study or General Education course of study. All students must pass at least 240 credits, required coursework, and proficiency exam.

General Education Course of Study

The General Education course of study is similar to the requirements determined by the State of California for students graduating from public high schools. It is designed for students enrolling in community colleges, trade schools or starting a career without further education. This is a less rigorous course of study than the College Preparatory course of study.

English	30 credits	3 Years	(6 semesters) required
Math (Including Algebra 1)	20 credits	2 Years	(4 semesters) required
Science (Biological & Physical)	20 credits	2 Years	(4 semesters) required
U.S. History	10 credits	1 Year	(2 semesters) required
World History	10 credits	1 Year	(2 semesters) required
U.S. Government	5 credits	1 Sem.	(1 semester) required
Economics	5 credits	1 Sem.	(1 semester) required
Foreign Lang., Fine Arts, or Career Ed.	10 credits	1 Year	(2 semesters) required
Physical Education	20 credits	2 Years	(4 semesters) required
Bible	40 credits	4 Years	5 credits per semester required
Career Research & Development	20 credits		recommended
Drivers Education	2.5 credits	1 Sem.	(1 semester) recommended
Health	5 credits	1 Sem.	(1 semester) recommended
Electives			As needed to reach a minimum of 240 credits

College Preparatory Course of Study

This course of study is recommended for students planning to attend or transfer to a four-year college or university. It is based upon the classes required for admittance as a freshman to the University of California (UC) or California State University (CSU). It is our recommendation that **all** academically capable students aim for completion of this course of study as it will allow for the greatest number of future academic possibilities. The UC System requires a GPA of 3.0 or higher and the CSU System requires a GPA of 2.5 or higher. Students with lower GPAs may be accepted based on individual college guidelines.

English	40 credits	4 Years	(8 semesters)
Algebra 1, Algebra 2 & Geometry	30 credits	3 Years	(6 semesters)
Laboratory Science (Biological & Phys.)	20 credits	2 Years	(4 semesters)
U.S. History	10 credits	1 Year	(2 semesters)
World History	10 credits	1 Year	(2 semesters)
U.S. Government	5 credits	1 Sem.	(1 semester)
Economics	5 credits	1 Sem.	(1 semester)
Foreign Language (same)	20 credits	2 Years	(4 semesters)
Fine Arts	10 credits	1 Year	(2 semesters)
Physical Education	20 credits	2 Years	(4 semesters)
Bible	40 credits	4 Years	5 credits per semester
Career Research & Development	20 credits		recommended
Drivers Education	2.5 credits	1 Sem.	(1 semester) recommended
Health	5 credits	1 Sem.	(1 semester) recommended
Electives			As needed to reach a minimum of 240 credits

Students who plan to major in a science or math related field should take additional science and math courses. Students who plan to major in liberal arts should consider taking additional language arts, fine arts or foreign language courses.

STUDENTS SHOULD CONSULT THE SPECIFIC ENTRANCE REQUIREMENTS OF THE COLLEGE OR UNIVERSITY THEY WISH TO ATTEND. REQUIREMENTS MAY BE DIFFERENT THAN THOSE LISTED ABOVE.

Course of Study for the IEP Diploma / Certificate

The writing of each student's IEP takes place within the larger picture of the special education process. The IEP describes the program designed to meet that student's needs. On pages 25–30 are forms and samples of the Individualized Student Education Plan Summary Form, Planning Sheet and Report Card.

Resources:

- Coastal Academy's Individualized Student Education Plan (ISEP) Forms
- HSLDA's website has a sample SEP (Student Education Plan) Form and useful articles on education plans. HSLDA also has Special Needs Educational Consultants available who can assist with development of your student's individualized plan and offers Compassion Curriculum Grants to help with diagnostic services, therapy, curriculum or other educational materials. <http://www.hsllda.org> or 540-338-5600
- Marian Soderholm at MCA Educational Assessment Services (562) 425-7886
- Developing Self-Advocacy, Second Edition: A practical guide and workbook for preparing the high school learning disabled student for post-secondary success by Dr. Robert A. Valenti

The child's progress toward the annual goals is measured as stated in the IEP. Parents regularly inform Coastal of their child's progress at the end of each semester and whether that progress is enough for the child to achieve the goals by the end of the year.

At least every three years the child must be re-evaluated to find out if the student continues to be "with a disability," and if the student's educational needs have changed. However, the child must be re-evaluated more often if conditions warrant.

Students who are working toward an IEP Diploma should pursue the general education course of study and pass the Iowa Assessments (IOWA) or other approved testing by the fall of their senior year. Students working toward the IEP Certificate must maintain full-time status from 1st grade through 12th grade and should have a progress review with the high school advisor in the Spring of 11th grade.

Definition of a "Course"

Typically, a year long course in a California public high school is worth 10 credits. Coastal Academy will grant ten credits for high school level course work that is equivalent to a one-year course in content or in teaching time.

Content Equivalency: Any student who completes a high school textbook and has successfully mastered the content has completed the course. Coastal Academy will grant 10 credits upon completion of a standard high school textbook. If a student completes the textbook in less time than the required 180 days, credit will be awarded based on content equivalency.

Time Equivalency: Course work is based upon the time a public school student spends under the direct instruction of a teacher in class time. High school classes meet for 50 minutes per day for a total of 180 days. This is equivalent to 150 hours of course work for 10 credits or 5 credits for a one-semester equivalent of 75 hours of course work. Credit will be issued based on time spent on high school-level course work. Use a form to document the time requirement. Mary Schofield's, *The High School Handbook* contains several sample forms. Time equivalency is a good method to use for classes such as P.E. and Music. **15 hours = 1 credit.**

Non-textbook Equivalency: Coastal Academy recognizes that effective learning methods exist apart from textbooks. If a parent/teacher designs a course using less traditional teaching materials but covers the required concepts at a high school level, Coastal Academy will award credits based upon mastery of those concepts regardless of the teaching methods or materials used. (Barbara Shelton's book *High School Form + U + La* is an excellent resource.)

Must all Courses be 5 or 10 Credits? Some families prefer to study a course for a longer period than is standard. A 10-credit course may be worked on for 2 years at a slower pace. Even though the student spent 4 semesters, this is still a 10-credit course. Families may also wish to include a short enrichment course of 1, 2 or 3 credits. When including these courses you must weight them properly when computing the grade point average. A grade for a 1-credit course is worth less than a grade in a 5-credit course.

Requirements from the CA State Education Code

Though not legally required to teach the same classes as public schools, private schools (such as Coastal Academy) are required by 48222: “to offer instruction in the several branches of study required to be taught in the public schools of the state...”

For your information, the branches of study required appear below, as per code 51220, amended 08/22/2023.

The adopted course of study for grades 7 to 12, inclusive, shall offer courses in the following areas of study:

- (a) English, including knowledge of and appreciation for literature, language, and composition, and the skills of reading, listening, and speaking.
- (b) Social sciences, drawing upon the disciplines of anthropology, economics, geography, history, political science, psychology, and sociology, designed to fit the maturity of the pupils. Instruction shall provide a foundation for understanding the history, resources, development, and government of California and the United States of America; instruction in our American legal system, the operation of the juvenile and adult criminal justice systems, and the rights and duties of citizens under the criminal and civil law and the State and Federal Constitutions; the development of the American economic system, including the role of the entrepreneur and labor; the relations of persons to their human and natural environment; eastern and western cultures and civilizations; human rights issues, with particular attention to the study of the inhumanity of genocide, slavery, and the Holocaust; and contemporary issues.
- (c) Foreign language or languages, beginning not later than grade 7, designed to develop a facility for understanding, speaking, reading, and writing the particular language.
- (d) Physical education, with emphasis given to physical activities that are conducive to health and to vigor of body and mind, as required by Section 51222.
- (e) Science, including the physical and biological aspects, with emphasis on basic concepts, theories, and processes of scientific investigation and on the place of humans in ecological systems, and with appropriate applications of the interrelation and interdependence of the sciences.
- (f) Mathematics, including instruction designed to develop mathematical understandings, operational skills, and insight into problem-solving procedures.
- (g) Visual and performing arts, including dance, music, theater, and visual arts, with emphasis upon development of aesthetic appreciation and the skills of creative expression.
- (h) Applied arts, including instruction in the areas of consumer education, family and consumer sciences education, industrial arts, general business education, or general agriculture.
- (i) Career technical education designed and conducted for the purpose of preparing youth for gainful employment in the occupations and in the numbers that are appropriate to the personnel needs of the state and the community served and relevant to the career desires and needs of the pupils.
- (j) Automobile driver education, designed to develop a knowledge of the Vehicle Code and other laws of this state relating to the operation of motor vehicles, a proper acceptance of personal responsibility in traffic, a true appreciation of the causes, seriousness, and consequences of traffic accidents, and the knowledge and attitudes necessary for the safe operation of motor vehicles. A course in automobile driver education shall include education in the safe operation of motorcycles.

(k) Other studies as may be prescribed by the governing board.

51220.2. (a) For purposes of subdivision (b) of Section 51220, "instruction in our American legal system, the operation of the juvenile and adult criminal justice systems, and the rights and duties of citizens under the criminal and civil law and the State and Federal Constitutions" may include participation in a teen court or peer court program as described in subdivision (b). 51220.5. (a) The Legislature finds and declares the following: (1) The family is our most fundamental social institution and the means by which we care for, prepare, and train our children to be productive members of society. (2) Social research shows increasingly that the disintegration of the family is a major cause of increased welfare enrollment, child abuse and neglect, juvenile delinquency, and criminal activity. (3) The lack of knowledge of parenting skills and the lack of adequate preparation to assume parental responsibilities are not only major causes of family disintegration, but also contribute substantially to the disastrous consequences of teen pregnancy. (4) Because the state government bears much of the economic and social burden associated with the disintegration of the family in California, the state has a legitimate and vital interest in adequately preparing its residents for parenthood. (b) The Legislature recognizes that the public education system is the most efficient and effective means to educate the populace on a large-scale basis, and intends, therefore, to use the public education system to ensure that each California resident has an opportunity to acquire knowledge of parenting skills prior to becoming a parent. The knowledge shall include, at a bare minimum, all of the following: (1) Child development and growth. (2) Effective parenting. (3) Prevention of child abuse. (4) Nutrition. (5) Household finances and budgeting. (6) Personal and family interaction and relations. (7) Methods to promote self-esteem. (8) Effective decision making skills. (9) Family and individual health. 51221. Instruction required by subdivision (b) of Section 51220 in the area of study of social sciences shall also provide a foundation for understanding the wise use of natural resources. 51222. (a) All pupils, except pupils excused or exempted pursuant to Section 51241 shall be required to attend upon the courses of physical education for a total period of time of not less than 400 minutes each 10 school days.

Community Service Program

"The harvest is plentiful, but the laborers are few" (Matthew 9:37 NASB)

I. Coastal Academy's Community Service Program

Coastal Academy is requesting all high school students to serve a minimum of **twenty-five (25)** volunteer hours each year that they are enrolled in our school. Serving others is a big part of participating in the harvest Jesus talked about. Opportunities abound and can include serving meals to the disadvantaged, working with your church's clothes closet, or helping with Vacation Bible School. There are numerous ways to show care and support to the community. Coastal's website (www.coastalacad.com) offers additional opportunities to consider.

A form is available for you to record the hours worked and will require a signature from a supervisor. **This will be due the first week in May.**

II. Partnering with the President's Volunteer Service Award Program

In addition, Coastal Academy is working with the President's Volunteer Service Award Program to recognize the valuable contributions our volunteers are making in the community. Any student who meets the program's criteria, can receive Presidential recognition for additional volunteer hours.

All students from age 5-25 are eligible to receive awards. Awards will be presented to those present at graduation each year.

III. Presidential Award Criteria

	Ages 5-10	Ages 11-15	Ages 16-25
Bronze	26-49 hrs	50-74 hrs	100-174 hrs
Silver	50-74 hrs	75-99 hrs	175-249 hrs
Gold	75+ hrs	100+ hrs	250+ hrs

Proficiency Requirement

Coastal Academy has established a proficiency requirement to ensure all students earning a Coastal Academy diploma meet minimum skill levels. All students working for a Coastal Academy diploma must pass the HiSet or IOWA no later than the fall of their senior year in order to participate in Coastal's graduation ceremony.

California High School Equivalency Test (HiSet)

This test offered by the state of California measures reading comprehension, mathematical computation skills, and essay writing ability. It can also be taken to graduate early; however, an Academy diploma will not be issued unless the student has also completed course and credit requirements. The HiSet may be taken by persons who, on the day of the test, are 16 years of age or older, and have completed 10th grade or who are currently enrolled in the second semester of 10th grade.

After passing the language arts and mathematics subtests, the student will earn a California State Board of Education issued Certificate of Proficiency which is the legal equivalent to a high school diploma issued by the state of California. The student may choose to remain in high school or exit with parent or guardian's permission to begin attending higher education or their career.

The HiSet measures "general education" competencies; it does not satisfy the entrance requirements of most colleges and universities. California law states that the Certificate of Proficiency "shall be equivalent to a high school diploma." Employers or institutions in California that require a high school diploma must accept the Certificate. Out-of-state universities and governmental agencies are not held to California law. Students should check the requirements before relying on the Certificate for college admission, federal jobs, etc. Provisions for special testing can be arranged with the California Proficiency Program for students with learning disabilities. Students must pass the HiSet no later than one semester before graduation to participate in Coastal Academy's graduation ceremony. To register and obtain information visit <https://hiset.org/>.

Iowa Assessments (IOWA)

The Iowa Assessments Test provides objective, norm-referenced information to help assess student development in vocabulary, reading comprehension, language, spelling, and math. It gives students and their parents a tool for evaluating individual strengths and weaknesses as compared to students across the nation. 11th or 12th grade students who take the Iowa Assessments Test and receive a total composite score of 10.0 or higher will be eligible to receive a Coastal Academy diploma and participate in our graduation ceremony if they have also completed the minimum credits and course of study required by Coastal Academy. This test must be taken under approved conditions. The test usually takes 3 ½ hours and is offered at Coastal Academy in Fall and Spring.

Why Is There a Proficiency Requirement?

It is our desire to allow parents and their students to have as much latitude and freedom of choice in their instruction as possible while ensuring that students have received a competent education. Rather than require parents to prove the efficacy of their choices through portfolios or yearly monitoring we opted to require testing. This prerequisite is similar to the public high schools' requirement of competency tests as a condition of graduation. While recognizing that some students do not test well, this is our primary method of determining educational proficiency.

HiSet or IOWA?

Passing the HiSet allows students to work without a work permit. Students who wish to stop their high school education may do so if they pass the HiSet and have written parental permission to do so. Some colleges and universities require home schooled students to pass the HiSet as part of their admission qualifications. The California Certificate of Proficiency is equivalent to an accredited high school diploma and is recognized throughout California.

The IOWA exam is different from the HiSet in that it does not confer an accredited high school diploma. Instead it provides families with diagnostic information and can be used to obtain a Coastal Academy diploma. Scores for each subject area are given as grade equivalents to help compare a student's performance against typical students. It is particularly helpful for students who struggle academically and can be used to identify areas that need improvement.

Required Record Keeping Forms

All forms are official documents and must be legible. These forms are available on coastalacad.com. Sample forms are included at the end of this manual.

1. High School Planning Worksheet - This form (page 16) indicates the course work planned for a student's entire high school career. Decide which academic plan your student will follow (see page 4) and fill out the High School Planning Worksheet accordingly. This form must be on file before the student begins High School course work, (typically Back to School Night in September of their 9th grade year). This form may be revised and modified as necessary throughout the years. A sample can be found on page 20.

2. Course Description/Grading Standard Form- A course description and grading standard must be written for each class your student takes. For the course description write a paragraph or two detailing what the course covers, the objectives and concepts that will be taught, as well as a list of books and materials that will be used. This course description serves as the background information for the course title that appears on the student's transcript. This form also helps the parent to formalize the academic goals for the coming school year. For the Course Grading Standard indicate the assignments, projects, reading lists, essays, tests, speeches, papers, reports, etc., which will be required to receive credit and used to determine a grade. This allows the student to know what work is necessary to receive an A, B or C grade. Also indicate the length of the course and the credits to be received (a one semester course is 5 credits; a one year course is 10 credits.) **By law, these must be on file by the first day of school (due by Back to School Night in September).** Please refer to Mary Schofield's, *The High School Handbook* and the sample form at the back of this manual (page 21) for assistance.

3. Semester Transcript - The semester transcript is the high school student's report card. It is an evaluation of the student's progress by the parent/teacher. A letter grade must be assigned for each course. **It is strongly urged that full letter grades be used rather than plus or minus grades.** Below is a chart listing letter grades, grade points and equivalent percentage grade points.

Special Note: *Issuing diplomas and final transcripts is a service provided by Coastal Academy. Parents cannot hold Coastal Academy responsible for any educational outcomes or unfavorable professional opinions, rejections, or acceptances resulting from the use of a Coastal Academy diploma or transcript.*

Letter Grades	Grade Points	Quality of Performance	Percentage Points
A honors, AP	5.00	Advanced High Distinction	90-100%
A, A+	4.00	High Distinction	
A-	3.67	High Distinction	
B+	3.33	Superior	80-89%
B	3.00	Superior	
B-	2.67	Superior	
C+	2.33	Average	70-79%
C	2.00	Average	
C-	1.67	Average	
D+	1.33	Minimal Passing Grade	60-69%
D	1.00	Minimal Passing Grade	
F	0.00	Failure	
			59% and below

***Note: P.E. is not computed in the grade point average.**

This grade will appear on the transcript as an indication of how well the student mastered the subject, so it is important to grade the student as accurately as possible.

Students in a traditional setting who earn an "A" or "B" typically complete extra projects and do more in depth study of the required material or course. This goes beyond just "completing the required hours" especially in college prep courses. In a home school setting, students can redo assignments until a subject is mastered to be at an "A" or "B" level. Courses evaluated by pass/fail, credit/no credit, satisfactory/unsatisfactory are not computed into the grade point.

Coastal Academy holds the parent responsible for keeping accurate semester transcripts. Copies are kept on file in the Academy office. On each semester transcript, please list school year, Fall/Spring, title of courses, letter grades, total credits, where courses were taken, and if the courses were honors/AP.

Titles of courses should be specific, such as, English 9, Consumer Math, U.S. History, rather than math, science or social studies. Keep the original transcript and send Coastal Academy the copy. Transcripts are due on the first Friday in February and the first Friday in June. If a student has not completed a course at the end of a semester, give a grade and credits earned based the amount of work completed. For example, if a student has completed $\frac{1}{2}$ of a semester's class, the student would receive a grade based on the Course Grading Standard and 2.5 credits. Courses taken at a community college should be listed on the transcript and with the school's initials in parentheses after the course title. For example, Biology 101 (ECC), Algebra 100 (LAHC), Photography 23 (SMC).

When the student graduates or transfers, Coastal Academy will issue an official stamped and embossed transcript. **Families should not submit their own records to other schools.** Please use the sample transcript on page 22 as a reference.

4. Attendance Record - The State of California requires private schools to keep track of student attendance. Enrolled families must record daily attendance for each high school student. The attendance record form must be turned in at the end of each semester. This form (page 19) should list the number of all days during the semester in three categories: days present (including field trip days), excused absences (for illness), and holidays (any weekday when no educational activity takes place due to reasons other than excused absences). The total number of school days includes days present and days of excused absence.

Note: Records not received by the record filing date will be considered late and will be assessed a \$5.00 late fee per form. If records are not received within 45 days after the date records are due, dismissal procedures will begin.

RECORDS TO BE KEPT AT HOME: Coastal Academy recommends that families maintain a record of subjects taught, daily log book, and a sampling of your student's work to serve as verification of your home schooling efforts. **SEE COASTAL ACADEMY HANDBOOK FOR MORE DETAILS ON FAMILY RECORD RETENTION GUIDELINES.**

Number of Credits Allowed on Weighted Grading Scale

Coastal allows students a maximum of 40 credits to be graded on a 5.0 scale with no more than 20 credits allowed during the first two years. All honors, AP, or community college courses will be designated appropriately on the transcript but no more than 40 credits of weighted grades (5.0 scale) can be given.

Student Ranking

Coastal Academy does not rank its students due to our small class sizes and the difficulty in comparing coursework among students.

Number of School Days Required

Students are required to complete 175 days for each school year (about 88 days per semester).

Official High School Transcripts

The High School Advisor sends official transcripts to colleges or other organizations at the request of the student or parent. This generally takes a week. Please contact the High School Advisor if you need a transcript for any reason.

Additional Services Provided by Coastal Academy

High School Advisor

Coastal Academy provides a High School Advisor to assist and counsel families of high school students enrolled in the Academy. Duties of the advisor include sending official transcripts, tracking graduation requirements, reviewing grades/credits and required forms, dispensing information concerning testing and maintaining general needs of high school students. The Advisor is available by appointment for conferences.

Driver Education and Driver Training

The state of California does **not** allow parents to teach their children how to drive. Students may only be taught by public/private school teachers or commercial driving school instructors. Students who wish to get their driver's license before they are 18 years old must take Driver Education from an online school or a commercial driving school and Driver Training from a commercial driving school. Students may NOT drive with their parents once they have completed Driver Education or received their instruction permit unless they have begun Driver Training. After completing Driver Training students are required to drive with a licensed driver 25 years or older for at least 50 hours. Students who are 17 ½ years old may apply for their instruction permit (learner's permit) without passing Driver Education or Driver Training. Students may receive not more than 2.5 credits for Driver Education. No credit is awarded for completing Driver Training. The High School Advisor can provide proof of qualifying grades for automobile insurance good student discounts. Do NOT identify your student as a home school student to your insurance company. Some companies require standardized tests scores from home school students to qualify for a good student discount.

Graduation Ceremony

Coastal Academy honors all graduating students who are receiving an Academy Diploma with a ceremony of recognition in June. Parents of the graduating students participate in the ceremony. A school reception for the graduates and their families is held immediately after the ceremony. Students who miss the deadline to participate in the Coastal graduation ceremony will receive their diploma once they have completed all graduation requirements.

Academy Day Classes

Elective classes are held on the first and third Friday of every month. For high school students, these classes are generally for enrichment purposes only. Please refer to the Coastal Academy Handbook for further information on this aspect of our program.

Selective Service Registration

All males are required by law to register with the Selective Service System within 30 days of their 18th birthday. The Selective Service System is a government agency that provides manpower for the Armed Forces if there's a national emergency. Male students who do not register with the SSS cannot qualify for federal or state financial aid for college and may be fined or sent to prison. Students can register by mail by completing a form at the post office or online. Website: www.sss.gov.

Work Experience Options

Career & Technical Education - Career & technical education offers each student opportunities to personalize his or her education based on their career interests and unique learning needs. Courses should consist of a combination of related classroom instruction and supervised employment, internship, or volunteer work. Employment, internship or volunteer work must relate to the student's curriculum and career goal. Students may earn a maximum of 40 credits toward high school graduation.

Southern California Regional Occupational Center (SoCalRoc) – Students, who are residents of the city of Torrance, who live in the geographical area of the following school districts: El Segundo USD, Inglewood USD, Redondo Beach USD, Manhattan Beach USD, Palos Verdes Peninsula USD, and Torrance USD may take classes at SoCalRoc as part of their academic day. Students may attend 3 hours a day earning 10 credits per class per semester. Courses offered in the past include the areas of Arts & Design, Engineering & Design, Health Sciences, and Public & Consumer Sciences. **Note: Registration and class fees are NOT waived for homeschool students.**

Apprenticeships and Internships

Apprenticeships typically require 2,000 hours of training plus 144 hours per year of classroom instruction. Over 800 registered apprenticeships are listed with the federal government. Internships give students exposure to possible careers and last anywhere from 3 months to 2 years.

Work Permit

All students who are ages 12-18 and are employed need a work permit. A work permit is issued by Coastal Academy to students who have received a job offer. Permits to work issued during the school year expire five days after the opening of the next succeeding school year. See the chart below for number of hours students may work. For more information about work permits contact the High School Advisor or the state website FAQ at <http://www.cde.ca.gov/ci/ct/we/wpfaq.asp>.

	Ages 16 & 17 Must have completed 7th grade to work while school in session.	Ages 14 & 15 Must have completed 7 th grade to work while school in session
SCHOOL IN SESSION	4 hours per day on any school day 8 hours on any non-school day or on any day preceding a non-school day. 48 hours per week	3 hours per school day outside of school hours 8 hours on any non-school day 18 hours per week
SCHOOL NOT IN SESSION	8 hours per day 48 hours per week	8 hours per day 40 hours per week
SPREAD OF HOURS	5 a.m. – 10 p.m. Until 12:30 a.m. on any evening preceding a non-school day	7 a.m. – 7 p.m., except that from June 1 through Labor Day, until 9 p.m.

College Credit During High School

It is possible to take classes at local community colleges while in high school. The High School Advisor will sign the required paperwork. College course work can also be used for high school credit and graduation requirements as well as college credit. A special application must be filed before beginning course work. Families must file Course Description and Course Grading Standard forms with the High School Advisor for these courses. Courses should be marked on the transcript with the initials of the community college in parenthesis after the course title. Generally, a 3 or 4 unit course is worth 10 high school credits, a 2 unit course is worth 5 credits and a 1 unit course is worth 2.5 credits. **CAUTION: Some colleges and universities will only accept students as freshmen or junior transfers.** Students with some college credit may not be accepted until enough credits are earned to enter as a junior. Check the college admission standards of the school of your choice before taking college classes.

Options After High School

There are a variety of avenues a student can pursue after high school. A college education is not the path for every student. Some students opt to attend a trade school or work for a time before deciding on their careers. In addition to trade schools, community colleges offer certificate programs in specific fields and do not require students to take other classes. This is helpful for students who want to focus their education in their area of interest rather than complete a 2-year or 4-year degree program.

College Entrance Information

Students are urged to research through collegeboard.com, or the college website, the college or university they want to attend during their junior or senior year of high school to make certain that they satisfy its admission requirements. **It is the student's responsibility to research requirements, as they may vary significantly.**

Community Colleges

Community colleges, also known as junior colleges, offer vocational training and 2-year academic degrees. Many students prefer to take their general education requirements at a community college and transfer to a university as a junior. The advantages of this approach are that admission requirements are less strenuous, SAT tests are not needed, classes are less expensive and it may be easier to enter a university as a transfer student than as a freshman. Students interested in completing their general education classes before transferring to a four-year school should consider the Intersegmental General Education Transfer Curriculum (IGETC) program. By completing the IGETC requirements, you will satisfy all lower division general education requirements for the UC or CSU schools.

Entrance requirements: Must be a resident and meet one of the following requirements: a high school diploma; Certificate of Proficiency or GED (General Education Diploma); 18 years old or older.

Website: www.ednet.cc.ca.us (click on the Community Colleges link for general information), El Camino College – www.elcamino.edu; Harbor College – www.lahc.edu

California State University System (A-G)

California State Universities are 4-year colleges with 22 campuses that offer undergraduate and postgraduate degrees. They admit the top 1/3 of graduating seniors. Please note: LAUSD is now requiring their students meet the A-G requirements in order to graduate.

Entrance requirements: high school diploma, Certificate of Proficiency or GED (General Education Diploma), college preparatory courses completed, and meet the eligibility index requirement.

Required college preparatory courses:

English Language Arts	4 years
Mathematics	3 years (Algebra 1, Geometry, Intermediate Algebra)
History/Social Science*	4 years (U. S. History, social science, Government, Economics plus one more social science elective)
Laboratory Science	1 year biological science and 1 year physical science
Foreign Language	2 years of same language
Visual and Performing Arts	1 year (Both semesters need to be from the same discipline)
Electives	1 year from the above listed subject areas

***Note: The California Department of Education's High School graduation requirements differ in the area of Social Science. Although the CSU System only requires 2 years of study, the state of California requires 3 years of study to graduate. (see page 4 of this manual)**

California State University Eligibility Index

The eligibility index is based on high school GPA and completion of the approved 15 "A-G" courses. (see page 4) High school grade point average includes coursework from the above list completed during 10th – 12th grades. Students with a 2.5 or better GPA have met the eligibility requirement. GPAs under 2.0 does not qualify. SAT/ACT tests are not required and will not be considered for acceptance. If a student wants to take these tests, scores may be used to determine proper placement in English or Math courses. See the California State University website for information on how to calculate your eligibility index.

Websites: www.calstate.edu (general site for CSU admission, campuses), www.csu???.edu (replace ?? with the initials of the school – Long Beach=lb, Dominguez Hills=dh, etc.)

University of California System

University of California schools are 4-year universities that offer undergraduate and postgraduate degrees. These are more prestigious than California State Universities and have more difficult entrance requirements. They admit the top 1/8 of graduating seniors.

Entrance requirements: There are three pathways to satisfying the University's minimum admission requirements for freshman students: Eligibility in the State-wide Context, Eligibility in the Local Context, and Admissions by Exception. All students applying to a UC school must complete the 15 "A-G" courses and have a GPA of 3.0 or better. (see page 4)

Eligibility in the Local Context (ELC) and Eligibility in the State-wide Context options are not available to Coastal Academy students. Coastal students must be considered by Admission by Exception.

In order to be admitted by exception, it is in the student's best interest to demonstrate proficiency in each of the a-g subject areas. This can/should be done by completing community college coursework that is articulated to UC, completing University coursework, and/or scoring well on standardized subject area tests (AP tests, IOWA, HiSet, etc.). Of course, other qualifications will be considered, such as community service, leadership, special skills and interests (i.e. the arts, athletics, etc.) and several other contributing factors to understand the complete person and how he/she might contribute to and benefit from University life.

The University considers a student to be a freshman applicant if he/she is applying for UC admission and is either still in high school or has graduated from high school and has not enrolled in a regular session at any college or university. Students may attend a summer session immediately after graduating from high school and still be a freshman applicant.

Websites: www.universityofcalifornia.edu/students (general site for all the campuses); for specific campuses use www.school.edu (replace *school* with UCLA, Berkeley, UCI, etc.)

***Note: The California State University and University of California schools no longer require SAT or ACT testing as part of the admissions requirements.**

College Scholarships

Students interested in seriously pursuing college scholarships should begin to research and prepare for this process during the sophomore and junior years. SAT tests and practice application essays should be done during the end of the junior year so applications can be submitted in the fall. The best place for information about student financial aid is the financial aid office at the college or university you plan to attend.

State and Federal Student Aid

Students who need financial help to attend college are encouraged to apply to California or federal student aid programs. The *Free Application for Federal Student Aid*, or FAFSA, is used to apply for federal student financial aid, including grants, loans, and work-study. It is used by most states and schools to award non-federal student financial aid. Students who wish to apply for federal aid may apply as early as October 1 of their junior year. Applications are accepted through the student's senior year of school. If also applying for state financial aid, the application should be submitted no later than March 2nd of the student's senior year. This application can be filed online or on paper. Paper applications are available from public libraries. See the website for more details.

Website: <http://www.fafsa.ed.gov>

The state of California offers the Cal Grant High School Entitlement Award program. This program offers state funded monetary grants to students with good grades who meet financial need criteria. To apply for this grant students must submit the FAFSA Application, create an online account at WebGrants for Students, and submit their scores for either the ACT, SAT, GED, or HiSet tests by March 2nd of their senior year. Coastal students must use test scores as verification of their grade point average. See website for more details.

Website: <http://www.csac.ca.gov>

SAT Test Information

The SAT Reasoning Test and SAT Subject Tests are generally offered at public high schools in the fall and the spring for 11th and 12th graders. Registration deadlines are usually one month before the test date. The tests may be taken up to 3 times. Some colleges will pick your best score, your last score or an average of all tests taken. Consult your college choice for specifics. Tests should be taken by December if you are applying to universities that require these tests for admission. They will want to see test results with your admission application which is due in January. PSAT tests can be taken at any grade level for practice. The PSAT for 11th graders counts toward the National Merit Scholarship program. Coastal Academy's high school code number for the SAT/PSAT/ACT tests is 051448. Please list our number so we receive a copy of your test results.

Website: www.collegeboard.com

National Collegiate Athletic Association

Coastal students may qualify for NCAA Division I eligibility either as a home school student or a private school student. All interested students must register with the NCAA Eligibility Center before starting 9th grade and pay any applicable registration fees. To qualify the following requirements must be met upon completion of senior year:

- Submit proof of high school graduation
- Successfully completed a core curriculum of at least 16 approved academic course units as follows: 4 years English, 3 years Mathematics (at the level of Algebra I or above), 2 years natural or physical science (including at least one laboratory course), 1 year additional courses in English, mathematics, or natural or physical science, 2 years social science, and 2 years additional academic courses [in any of the above areas or foreign language, philosophy or non-doctrinal religion]
- Have a core-course grade-point average of 2.3 or better
- Submit official transcript
- Submit statement by homeschool manager
- Submit core course worksheets

Coastal has not submitted any courses for approval with the NCAA. Courses can be submitted for approval but this must be done before a student begins high school. Contact the High School Advisor for more information about this option.

Start Date: 8/30/2022		End Date: 06/03/2023
<p>United States History (5th Edition) teaches students about the development of the United States as a nation in order for them to become informed and empowered citizens. The course begins with early American settlement, then moves on through the formation and early years of the nation, the Constitution, and the many challenges that have threatened survival. Students will develop their critical thinking skills as they learn to use their knowledge of the nation's history to make informed decisions about issues on a local, state, and national level.</p> <p style="text-align: center; opacity: 0.5; font-size: 4em; font-weight: bold;">SAMPLE</p>

SAMPLE				

Total credits for the semester: 35

Date submitted: 02/02/2024

Parent's signature *Jane Smith*

Notes:

AP/Honors Courses: AP/Honors courses earn the same credits as standard high school courses (typically 5 per semester). AP/Honors courses will be designated on the official cumulative transcript.

College Courses: A 1 semester college course is equivalent to 1 year in high school and earns 10 credits per semester. College courses will be designated on the official cumulative transcript.

Courses Listed: All subjects/courses that are listed on the transcript must have Course Descriptions & Grading Standards Forms on file in order to be included on the official cumulative transcript.

P.E.: Standard P.E. courses earn 2.5 credits per semester. P.E. that includes rigorous training or organized sports earns 5 credits per semester.
