

Coastal Academy

Individualized Student Education Plan Summary

Date prepared 10/17/18

Student Carrie Coastal (8th grade) Age 13 School Year 2018/2019

Description of diagnosis/challenges

Carrie is performing at grade level for most of her language arts related subjects but has experienced significant delays in the area of mathematics.

Summary of Present Skill Levels

Carrie has recently transitioned from the K-12 online program style of homeschooling to a more direct approach with her grandmother providing most of the instruction. Carrie is still trying to master her multiplication tables which has hindered her advancement into grade level mathematic concepts such as fractions, decimals, basic algebra and basic geometry.
